ABOUT US

REVOLUTIONIZING CAMPUS PARKING

AiTech is transforming campus parking with innovative technology. Our system uses AI-powered YOLO and CNN algorithms for accurate vehicle detection and license plate recognition. We aim to make parking seamless for students, faculty, and visitors.

SOLVING PARKING CHALLENGES

Our mission is to address limited parking spaces and inefficient systems. With real-time monitoring and notifications, we ensure a stress-free parking experience. Our solution remains reliable even in low light and motion conditions.

DRIVING SUSTAINABILITY ON CAMPUS

AiTech promotes eco-friendly practices through smart parking solutions. By reducing vehicle idling, we help cut emissions and enhance campus sustainability. Together, let's create a smarter, greener parking environment.

AITECH

AI-DRIVEN SMART CAMPUS PARKING MANAGEMENT SYSTEM
